## 6. Distribution of accreditation device

Except very few cases (for some target group it is possible that venue responsible of the respective project pick up accreditations), all accreditation passes have to be collected in the Venue Accreditation Centres during the opening hours.

The applicants have to come to Welcome desk with their IDs and accreditation voucher (confirmation e-mail) received upon their successful registration (print or online). After that, the volunteer will search for the person in the system and if every data is filled correctly, the accreditation will be printed, and the applicant will be sent to the waiting area.

In case of wrong data entry or poor picture quality, the volunteers will be able to correct the data or retake the photo in the Accreditation Centre.

When the accreditation is ready, the applicant will be called by the delivery desk and he/she will collect the accreditation pass and sign the handover document.
